# SOME SIMPLE QUESTIONS

## Educational Differentials

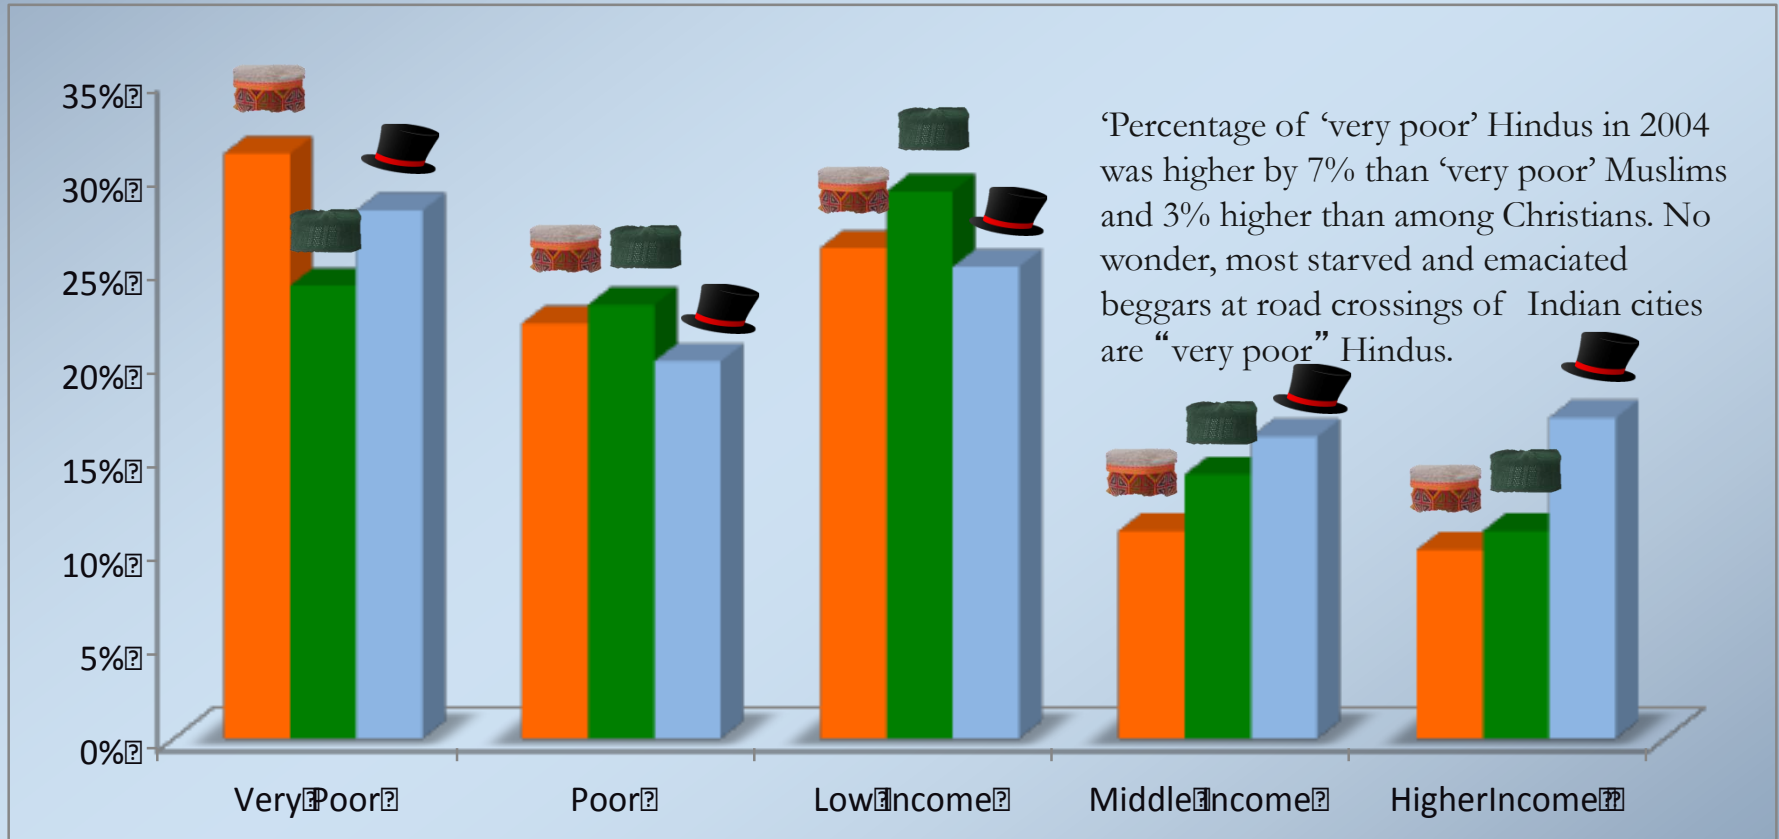

# SOME SIMPLE QUESTIONS

## Data About Economic Status

Was available in public domain before finalisation of Justice Sachar’s Report to Prime Minister in November, 2006. Why Ignored by Justice Sachar & Salman Khurshid?

Source: National Election Studies Survey, 2004, by Centre for Developing Societies cited by Prof. Sanjay Kumar in his Seminar Paper titled 'Social and Economic Status and Public Perception of Muslims' circulated in a seminar on September 2, 2006, at the prestigious Indian Institute for Public Administration, New Delhi.

# SOME SIMPLE QUESTIONS

*Why did Salman Khurshid ignore poorest Hindus?*

• Spectacular decline in Poverty among Muslims vis a vis Hindus between 2004-05 and 2009-2010 was highlighted by Prof. Sukhdeo Thorat & Amaresh Pandey in their research study presented in a seminar jointly organised by Planning Commission and United Nations Program (UNDP) on October 24-25, 2011, in Claridges Hotel, New Delhi. The poverty reduction found by the 2 scholars among religious groups was as follows :

- Among Muslims **7.6%**
- Among other religious minorities (ORMs) **7.2%**
- Among Upper Caste Hindus **4.5%**
- Among Scheduled Tribes **5.2%**
- Among Scheduled Castes **4.2%**

• Salman Khurshid, Justice Sachar & members of the NAC must explain why unwashed daughters and sons of poorest **34-35 crore** Hindus living below the poverty line (estimated as per Prof. Tendulkar Report norms), were denied share in 20 million scholarships showered on Muslims and 4 other minorities. The said report concluded that **37.2% Indians** were living below the poverty line (nearly **35 crore** BPL Hindus).

## RATIONALE FOR EXCLUDING HINDUS

- Sikhs, Christians, Parsi, Buddhists are significantly ahead of Hindus in all indicators of Human Development esp in economic and financial status. Not asked for grants but given.
- They do not constitute even a vote bank BUT
- To justify grants to Muslims and to Unite the 5 communities against the Hindu community was the real reason for these sops.

### *Article 15 (1) of the Indian Constitution stipulates*

- *“The state shall not discriminate against any citizen on grounds only of religion, race, caste, sex, place of birth or any of them”.*
- Constitution does not define the word Secular and Minority. Made them the most abused words in Indian Today

# JUSTICE SACHAR NAILED AT THE U.N.

**S Thorat/A Dubey of JNU presented paper in Oct 2011**

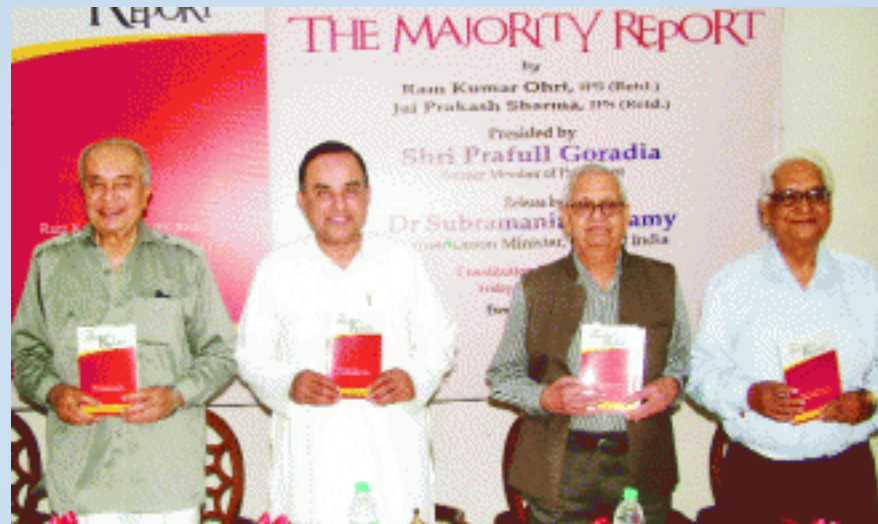

- Rate of decline in Poverty per annum between 1993-94 & 2009-10
  - Muslims **2.8%**
  - Hindus including SC **2.4%**
  - Scheduled Tribes **2.1%**
  - Christians, Jains, Sikhs **3.4%**
- In same period Rate of growth for Monthly Per Capita Expenditure
  - Hindus and Muslims **1.9%**
  - Other Religious Minorities **3%**
  - SC and ST **1.7%**

# FOOD FOR THOUGHT

- The word Secular should be defined in the Indian Consitution.
- It should as Morarji Desai's Govt proposed to mean 'Equal respect for all Religions'
- All Indians should be treated equally and given same rights.
- Thus Hindus should have a right to Manage their Temples and use temple collections for the benefit of the Hindu community
- The word Minority should be defined in the Indian Constitution.
- Govt schemes should be based on the economic status of a citizen and not religion.

# A REQUEST & PRAYER ON OUR LIPS...

An attempt has been made to boldly put together bare facts. We hope that these true facts will speak for themselves and expose the falsehood of Sachar Report. We are available for offering clarifications and providing more inputs during a public discussion any time.
